Mr. Arron Pelletier
Email: ceo@fencenbhighways.com

Dear Mr. Pelletier,

Thank you for your email requesting information about the new government's plans with regard to wildlife fencing.

Our government has committed to make significant investments in infrastructure over the coming years with a focus on improving road safety for the people of New Brunswick in a number of ways. Although the issue of wildlife fencing was not specifically mentioned in our platform, I understand that it forms an important part of the Department of Transportation and Infrastructure's long-term strategy to improve highway safety.

I will ask a member of Departmental staff to follow up with you with further information on the Department's current strategy with regard to wildlife fencing.

I trust this is satisfactory.

Sincerely,

Roger Melanson
Minister of Finance / Minister of Transportation and Infrastructure

c.c. Mr. James Hoyt, Engineering & Technical Services Branch - DTI
